Fuel spill action card

Stop everything and deal with the spill!

1. Assess hazards
2. Ensure safety of all personnel in vicinity
3. Assess source, type and extent of spill
4. Stop flow at source, if possible
5. Close off affected area
6. Limit spread
7. Notify Base Camp Manager and Environmental Officer

How to contain spill using available spill kit?

1. Use booms, pillows, mats to contain spill
2. Recover spilled material where possible
3. Prevent spread on blue ice
4. Clean up contaminated surfaces using sorbent materials

Safety is of paramount concern - do not risk harming yourself
